

QUICK VIEW CARD

The Tilt 365 Positive Influence Predictor is a strengths-based feedback web app that provides specific insights about personal balance, influence and self-mastery. When balanced, the four factors of Tilt combine to create team level climate for creativity and innovation.

Each of the four Quadrants of Tilt offer scores for three CORE STRENGTHS which measure a set of commendable traits that create positive influence. Your Tilt 365 report will give you feedback on four human "tilting" patterns that can tip out of balance and cause stress, chaos and conflict, so it serves as a warning sign for self-development. This gives the user the necessary data for keen self-awareness that is useful for fine-tuning interpersonal and leadership skills.

THE 4 TILTS
